

SimpleDrive Deluxe Quick Installation Guide

Installing SimpleDrive Firewire Drivers:

For Windows 98, 2000 and ME:

1. Connect the Firewire cable to **SimpleDrive** and to any Firewire port on your PC.
2. Windows will find and load the driver automatically and assign the next available drive letter in "My Computer"

For Mac OS 8.6 or Higher

1. Place the driver installation CD in your CD-ROM drive.

2. Open the "MAC" folder to find "storage" installer and double click to begin the installation.
3. Follow on screen instructions to complete installation.
4. Connect the Firewire cable to **SimpleDrive** and to any Firewire port on your PC.
5. **SimpleDrive** will be recognized as a disk drive icon on your computer.

Installing SimpleDrive USB Drivers:

For Windows 98

1. Place the driver installation CD in your CD-ROM drive. If the pop-up menu doesn't come up automatically, execute the "autorun.exe" file on the CD.
2. Click "Install **SimpleDrive** USB driver", follow the on screen instructions and restart the computer.
3. Plug the provided power adapter into **SimpleDrive**.
4. Connect **SimpleDrive** to the PC with the USB cable. **SimpleDrive** will be assigned the next available drive letter in "My Computer".*

Windows 2000 and Windows ME

1. Boot up and connect **SimpleDrive** to your PC with the USB cable.
2. Plug the provided power adapter into **SimpleDrive**.
3. Windows will install **SimpleDrive** automatically and assign the next available drive letter in "My Computer"

For Mac OS 8.6 or Higher

1. Plug the provided power adapter into **SimpleDrive**
2. Boot up and connect **SimpleDrive** to your computer with the USB cable.
3. **SimpleDrive** will be recognized as a disk drive icon on your computer.

**If you do not automatically see a new drive letter in "My Computer" for SimpleDrive, follow these steps:*

1. Click the "Start" menu and select "Settings" and then "Control Panel".
2. Double Click the "System" icon in "Control Panel" and then select the "Device Manager" tab.
3. From the list of devices, double click on "Disk Drives". You will see a list of all of your hard drives. Look for one that contains the name of the NEW drive on the list such as:

Fujitsu_xxxxx

Hitachi_xxxxx

IBM_xxxxxx

ICS_xxxxxx

Toshiba_xxxxx

Note: The manual on the installation CD is in HTML format. If you choose to view the full manual on the installation CD you may be prompted to automatically download additional language support for your Internet browser. You may choose to continue or cancel with no problem. This will not make any changes to your computer other than allowing you to view web pages in multiple languages.
